Safe Return of In-Person Instruction and Continuity of Services Plan 2021-2022

Districts in Ohio have been requested by the Governor to design a plan that addresses the safe return to in-person instruction and continuity of services for all students for the school year of 2021-2022.

Frontier Local responded to the global pandemic by providing a safe learning environment for all students using guidance from the Washington County Health Department in order for students to come to school everyday five days a week. The district also offered an online option for students. As the school year progressed, we continued to follow the guidelines for keeping everyone safe both physically and mentally while maintaining the high standards that are a part of Frontier Local.

Frontier Local will continue to follow these guidelines:

- Our district will continue to encourage safety protocols of hand washing, staying home when you don't feel well and giving individuals the option of wearing a mask.
- Our district will continue to work closely with the Washington County Health Department.
- Our district will be open and honest with students, families, staff and community members of any Covid risks that develop within the schools.
- Our district is committed to provide a safe learning environment where the academic and social emotional needs of our students are met.
